

PRECISION BALANCES PS/Y

release date 11-07-2011

Precision balances series PS/Y are the response for the growing market demands concerning simple operation and maximum automation of the weighing process.

Measurement reliability and accuracy is assured by internal automatic adjustment / calibration system triggered by time flow or temperature conditions.

Balances feature a new electronic module and are operated using a touch panel covering a 5.7" colour graphic display. Y scales have implemented new easily operated software.
